

EXQUISITE SERIES

Beyond Imagination

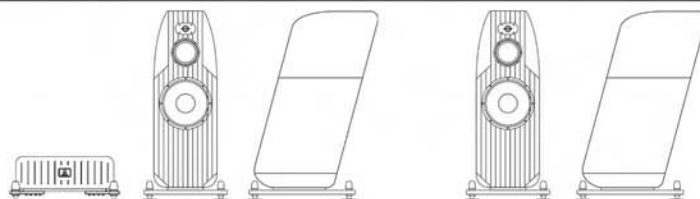

EXQUISITE REFERENCE 1A and 1E

For many years the Exquisite Reference has been Kharma's flagship, and the reference speaker for many a high-end lover. Until the development of the Grand it has been the ultra-high-end product of Kharma.

The cabinet is built up using vertically layered panels with carefully computed irregularity shaped cutouts, thus minimizing air born resonance. The panels are kept together by a de-coupling substance to prevent structureborn energy traveling from one panel to the other. This patented system guarantees a resonance-dead cabinet.

The Exquisite Reference is available with external crossover (1A) or with internal crossover (1E)
