

MBS-Series Bipolar Satellite Surrounds

Mirage MBS satellite speaker systems are the most compact and affordable Bipolar speakers ever, ideal for use as main satellite speakers in home theater applications with subwoofers, or as timbre matched rear effects speakers. Perfect for the new Digital AC-3 and DTS formats.

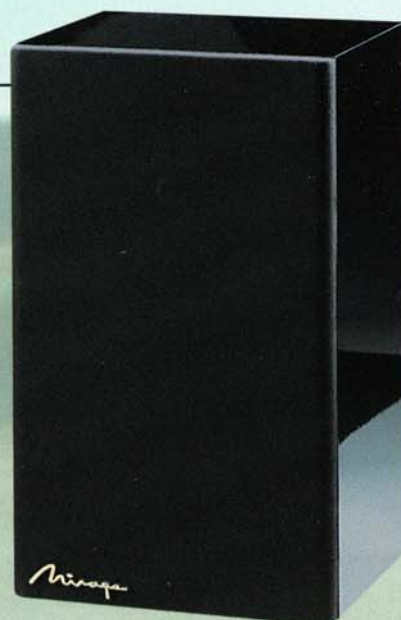

MBS-2

Featuring two 1" (2.54 cm) ferro-fluid cooled dome tweeters and two 5-1/2" (14 cm) vapour deposited titanium injection-molded bass/mid drivers, this Bipolar speaker system is a full range system ideally suited for high-end home theater systems. Usable bass response is 60Hz and maximum power handling is 100 watts RMS. Finished in High Gloss Black, this is the standard for compact Bipolar designs.

MBS

The world's smallest Bipolar speaker system with two 1-2" (1.27 cm) ferro-fluid cooled dome tweeters and two 4-1/2" (11.4 cm) injection-molded bass/mid drivers - all magnetically shielded. Usable bass response is 110Hz and maximum power handling is 100 watts with less than 10% clipping. Finished in High Gloss Black, the MBS is ideally suited for compact three piece systems (using a subwoofer) or as a complete L/C/R and surround system.
