Omnisat v2

IMAGINE. Imagine being in the center. Imagine being in the very middle of every note, every instrument, every word, and every conceivable sound. Imagine never experiencing anything like this before. Arguably, the very best sonic reproduction technically possible. Being in the moment... hearing it all. This is Mirage. This is for someone who appreciates the very best. You.

Omnisat v2 FS Floorstanding

INTRODUCING the OMNISAT v2 Series from Mirage. Refined OMNIPOLAR™ technology stretches the limits of home theater sound. With more accurate and precise sound reproduction than any other loudspeaker, the v2 series fulfills your ultimate listening and viewing experience. This achievement is the pinnacle of years of development and innovation. Not long ago, the wildly popular original OMNISAT was the speaker that pioneered revolutionary OMNIGUIDE technology. As a result, OMNIGUIDE technology has established itself as the foundation of every Mirage loudspeaker. With the launch of Mirage's new OMNISAT v2 line, a whole new generation of reproduction superiority has evolved. Our original OMNISAT satellite speaker has now been refined and joined by a floorstanding model, sleek in its design and utterly amazing in performance. Housed in a high quality extruded aluminum cabinet on a glass base, the new OMNISAT v2 FS features Mirage's proprietary OMNIPOLAR™ technology which radiates sound in a perfect spherical dispersion pattern — expanding the sweet spot to encompass virtually your whole room. With four passive radiators and three active 4.5" drivers, it produces phenomenal 360 degree three-dimensional sound, while generating superior low frequency performance.

Omnisat v2 CC Center Channel

OMNIPOLAR™ technology utilizes natural room reflections to produce a sense of greater realism - bringing to life a deeper, wider and taller soundstage than any other loudspeaker. Complementing the new floorstanding model is the dynamic OMNISAT v2 CC - a center channel speaker that brings the wonder of OMNIPOLAR™ sound to any home theater application, highlighted by crisp dialogue and precise center imaging. The v2 CC is a true 3-way center channel designed with a low profile enclosure and special bracketing system well-suited for unobtrusive wall mounting as well as a simple table top option. Like the FS, the new v2 CC features high quality 5-way binding posts for distortion-free connections and is available in two designer finishes to complement your home décor - black and silver.

Omnisat v2 Satellite

Mirage's original OMNISAT made its debut as a satellite speaker. Today's new v2 line builds on that breakthrough by offering major advances in satellite sound — so crucial to your home theater system. The OMNISAT v2 satellite features the same newly designed OMNIGUIDE module found in the FS and CC. Latest manufacturing advancements have led to the development of a completely redesigned OMNIGUIDE module — the OMNIGUIDE is a conically shaped cylinder that is responsible for reflecting sound in a perfect 360 degree pattern. The incredibly low-profile OMNISAT v2 satellite incorporates a versatile mounting bracket; allowing you to easily install the speaker just about anywhere you choose — on the wall, on the ceiling, on a bookshelf, or the matching OMNISAT v2 stand. The satellites are magnetically shielded so you can even place them on or next to the television without distortion. The OMNISAT v2 Satellite is the most versatile product within this new series, as it can be used as front speaker, center channel and surround speaker. Available in black, platinum/black, silver or white.

Omni S8, S10 & S12 Subwoofers

Complementing the new v2 line is Mirage's high demand array of OMNI subwoofers. The OMNI S8, S10 and S12 all offer pure and immaculate sound through Mirage's patented Elliptical Surround™, a proprietary component designed to increase excursion, eliminate distortion and raise efficiency. Coupled with the exclusive surround ribs that eliminate any surround dimpling, these innovative subwoofers can reproduce frequencies as low as 19 Hz (OMNI S12), with far greater output and fidelity than other comparable subwoofers. All OMNI subwoofers feature Mirage's proprietary 8, 10 or 12" Titanium Deposit Hybrid Woofers. Common features to the OMNI subwoofer series include front panel controls for level, frequency and phase control; rear inputs include high and low level (including LFE) connections as well as power mode selection. Available in black or platinum.

Omnisat v2 Design Specifications

MODELS

	v2 FS	v2 CC	v2 Satellite
System Type	2 1/2 Way Magnetically Shielded Omnipolar™ Tower with Hybrid Bass Loading	3 Way Magnetically Shielded Omnipolar™ Center Channel	2 Way Magnetically Shielded Omnipolar™ Satellite
Frequency Response	55 Hz-20 kHz, +/- 3 dB	70 Hz- 20 kHz	70 Hz- 20 kHz, +/- 3 dB
Tweeter	1" PTH™	3/4" PTH™	1" PTH™
Woofer	1 x 4.5" Poly Titanium Deposit Hybrid in Sealed Sub-enclosure, 2 x 4.5" Poly Titanium Deposit Hybrid with 4 x 4.5" Poly Titanium Hybrid Passive Radiators	3" Poly Titanium Deposit Hybrid Midrange, 2 x 4.5" Poly Titanium Hybrid Woofers with Neodymium Motors	4.5" Polypropylene Titanium Deposit Hybrid Woofer
Power Handling	175 W	175 W	150 W
Crossover Point	900 Hz, 2.5 kHz	700 Hz, 2.7 kHz	2.7 kHz
Room Efficiency	94 dB	91 dB	89 dB
Impedance	8-Ohm nominal, 4-Ohm minimum	8-Ohm nominal, 4-Ohm minimum	8-Ohm nominal, 4-Ohm minimum
Inputs	High Quality 5-way Binding Posts	High Quality 5-way Binding Posts	High Quality 5-way Binding Posts
Dimensions (HxWxD)	45 x 5.53 x 5.9" 114.3 x 14.05 x 14.99 cm (height includes glass base)	5.21 x 17.8 x 4.62" 13.23 x 45.21 x 11.73 cm	8.12 x 5.53 x 5.9" 20.62 x 14.05 x 14.99 cm
Weight	21.75 lbs, 9.9 kg	5.4 lbs, 2.45 kg	4.8 lbs, 2.2 kg
Available Finishes	Black, Platinum	Black, Platinum	Black, Platinum/Black, Platinum, White
