QUAD

the closest approach to the original sound

Platinum Series – an introduction

Quad has always stood for solid engineering to give the best sound quality through innovation. Through a long history of ground breaking products it has brought the music to the most discerning customers. The Platinum Series represents an evolution of the QUAD ethic and offers a superior standard of high-fidelity reproduction. In order to achieve this goal we have introduced a number of new technologies and implemented them to further refine some of those for which we are already famed.

The result is a range of products, each one designed from the ground up, not only to accurately reproduce the harmonic and dynamic structure of live music and provide a state-of-the-art performance, but also to re-create the sense of actually being there, at the recording venue.

The Platinum DMP Digital Media Player/ Pre-amplifier represents Quad's staggering achievement in digital audio and places it beside renowned high-end electronics on both sides of the Atlantic.

The Platinum DMP is Quad's first digital media playback centre featuring 24-bit/192kHz Delta Sigma I/V conversion, ample digital input and output connections and a dedicated USB input of asynchronous data processing for jitter free replay of high resolution music files from computers. A fully balanced pre-amplifier is built in, enabling direct connection to its partnering Platinum Stereo or Mono power amplifiers.

Remote Control Handset

Made of cast aluminium, this remote handset is designed for operating Platinum DMP multi-media player and Platinum PRE pre-amplifier. Volume control, digital input selection, menu, audio input selection, playback modes and advanced operations are done at a flick of the switch.

Model Name	Platinum DMP
DAC	Crystal CS4398
I/V conversion	24-bit/192kHz delta sigma
Output voltage	RCA unbalanced (fixed/variable) 2.42V / 0 ~ 4.1V XLR balanced (fixed / variable) 2.44V / 0 ~ 4.1V
Output impedance	100Ω
Frequency response	20 - 20kHz (+/-0.5dB)
THD+N	> -100dB (24 bits) > -94dB (16 bits)
S/N ratio	> 104dB
Digital inputs	3 SPDIF (RCA) 3 optical (TosLink) 1 USB with asynchronous data processing
Digital outputs	1 optical (TosLink) 1 BNC 1 RCA 1 AES/EBU
Analogue output	1 set of RCA sockets & 1 set of XLR sockets
Dimensions (W x H x D)	380 x 160 x 400mm
Standard accessories	Aluminium cast remote control handset, power cord

Model Name	Platinum Mono
Rated power output	180W RMS into 8Ω
Inputs	1 x RCA unbalanced, 1 x XLR balanced
Input impedance	10kΩ
Gain	32.5dB
Frequency response	20 - 100kHz (+/-1.0dB)
Dynamic range	> 100dB
THD+N	> 0.010%
Dimensions (W x H x D)	380 x 160 x 400mm
Standard accessories	Power cord

Model Name	Platinum Stereo
Rated power output	2 x 150W RMS into 8Ω
Inputs	1 x RCA unbalanced, 1 x XLR balanced
Input impedance	10 kΩ
Gain	32.5dB
Frequency response	20 - 100kHz (+/-1.0dB)
Dynamic range	> 100dB
THD+N	> 0.010%
Dimensions (W x H x D)	380 x 160 x 400mm
Standard accessories	Power cord
